

# Image Search Engine, Unsplash API

## Make Your Own Image Search Engine

Using this provided API create an App

Use the API - <https://unsplash.com/developers>

The App will have these features,

1. User can search for photos
2. Use Unsplash API to load the data.
3. Use Bootstrap 4 and custom css for designing.
4. Use Redux for State Management in React Js.

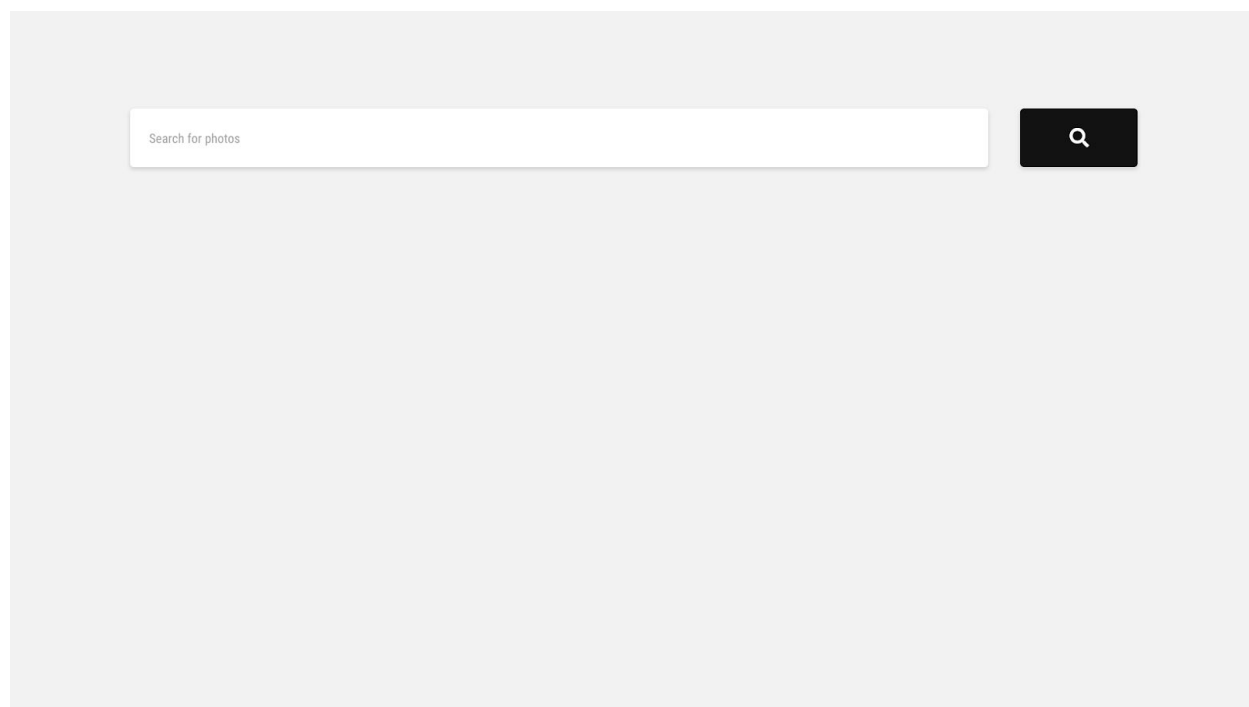

For reference, check the screens below.

Use Roboto Condensed font.
